# My Perspective

By Dave Welch, **MWEA** clean water professional

I work with water.

I observe and try to understand it, based upon its qualities when delivered from nature.

I observe and measure the changes to this water from all sources and processes.

I then participate in the process of returning the water to nature.

The “cycle of water” is so close to the “cycle of life” that I consider my contributions to be a direct connection to the future quality of life.

What I do WILL affect the balance of nature and all forms of life.

*Our proud and skilled clean water professionals make a difference in the quality of Michigan's watershed and thereby in the quality of Michigan's Public Health*

**EVERY DAY!**

*(Thanks, Dave!)*

# *Public Health*

Begins with a  
Clean, Safe  
and Healthy

# Watershed!

This message brought to you by your local  
clean water professionals from the:

Did you take a shower today?

Flush the toilet?

Wash the dishes?

Do any laundry?

....No waste water in your basement?

Thank a **clean water**  
professional from...

Stewards for Michigan's Water Environment

We (re)produce **Clean Water**
